

SECTION D: VISION, MISSION AND CORE VALUES & GOALS AND OBJECTIVES

1. VISION

The ZDM Council adopted the following long-term development vision.

'We are the Zululand region and proud of our heritage. We are mindful of the needs of the poor and we seek to reflect the aspirations of our communities. We are committed to responsible and accountable actions, tolerance and concern for racial harmony, the protection of our environment, and the strengthening of the role of women and youth. We will strive to improve the quality of life in Zululand by providing sustainable infrastructure, promoting economic development and building capacity within our communities.'

'WE SERVE THE PEOPLE'

2. MISSION

To create an affluent district by:

- Provision of optimal delivery of essential services;
- Supporting sustainable local economic development; and
- Community participation in service delivery

3. CORE VALUES

- Transparency
- Commitment
- Innovation
- Integrity
- Co-operation

The above vision strategic focus areas of the Zululand District Municipality are:

- To facilitate the delivery of sustainable infrastructure and services
- To promote economic development
- To promote social development

4. GOALS AND OBJECTIVES, STRATEGIC MATTERS & SERVICE DELIVERY PLAN

4.1 GOALS AND OBJECTIVES

Table 90: Goals and Objectives

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
1	Infrastructure and Services	1.1	Water & Sanitation	1.1.1	To progressively provide a cost effective, reliable water and sanitation services at a good quality to all potential consumers in the district	1.1.1.1	To provide cost effective water and sanitation (including free basic water and sanitation services)	1.1.1.1.1	Review 2015/16 WSDP
								1.1.1.1.2	Implement 2014/15 WSDP
								1.1.1.1.3	Provide Free Basic Water and sanitation
								1.1.1.1.4	Establish base-line costs of water production
								1.1.1.1.5	To provide for the Operations and Maintenance of water and sanitation projects
						1.1.1.2	To reduce Water Loss	1.1.1.2.1	Implement Water Loss Strategy
1.1.1.3	To improve on the quality of water delivered	1.1.1.3.1	Implement Water Quality Strategy						

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
						1.1.1.4	To facilitate labour intensive construction through water and sanitation projects implementation	1.1.1.4.1	Implement the EPWP
						1.1.1.5	To provide effective Customer Care	1.1.1.5.1	Improving communication and efficiency of response to technical concerns reported
						1.1.1.6	To ensure compliance with relevant water legislation	1.1.1.6.1	Review and implement legislated water policies & Bylaws
						1.1.1.7	To effectively utilise grant allocation for water and sanitation	1.1.1.7.1	Implement WSDP
						1.1.1.8	To deliver and regulate water services in a structured manner	1.1.1.8.1	To effectively regulate and monitor WSP's and Water Services Intermediaries
		1.2	Municipal Airports (District)	1.2.1	To viably operate & maintain a Regional	1.2.1.1	To ensure development of airport infrastructure	1.2.1.1.1	Review Airport Implementation Plan

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
								1.2.1.1.2	Implement current activities as identified in the Reviewed Airport Implementation Plan
		1.3	Municipal Roads	1.3.1	Airport that contributes to the growth & development of the district To facilitate the provision of a well-developed district road network	1.3.1.1	To establish the status quo of roads within the Municipal Area and to take responsibility of the assigned district roads	1.3.1.1.1	To develop a Rural Road Asset Management System
		1.4	Regulation Of Passenger Transport Services	1.4.1	To facilitate the Regulation of Passenger Transport Services	1.4.1.1	To clarify the DM's role in the Regulation of Passenger Transport Services	1.4.1.1.1	Development of an Integrated Public Transport Plan
		1.5	Fire Fighting	1.5.1	To Plan, co-ordinate and regulate Fire Fighting Services in the district	1.5.1.1	Regulation and co-ordination of Fire Fighting Services	1.5.1.1.1	Secure funds to prepare ZDM Fire Fighting Bylaws
		1.6	Disaster Management	1.6.1	To deal with Disasters efficiently & effectively in the district	1.6.1.1	To review and facilitate the district Disaster Management plan	1.6.1.1.1	To review and implement the district Disaster Management Plan
						1.6.1.2	To create awareness of hazards and disasters	1.6.1.2.1	To prepare Disasters and Hazards Awareness Strategy
		1.7	Solid Waste	1.7.1	To facilitate the effective and efficient removal of solid waste	1.7.1.1	To facilitate co-ordinated regional solid waste management	1.7.1.1.1	Investigate Feasibility of Regional Solid Waste management

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
		1.8	Municipal Health Services	1.8.1	To facilitate the effective and efficient municipal health service across the district	1.8.1.1	To deliver an effective environmental municipal health service	1.8.1.1.1	Prepare Plan for effective and efficient Municipal Environmental Health Services
		1.9	Regional Fresh Produce Markets & Abattoirs	1.9	Investigate the feasibility of Fresh Produce Markets and Abattoirs	1.9.1.1	To establish co-ordinated and efficient regional fresh produce infrastructure where feasible	1.9.1.1.1	Investigate Feasibility of regional Fresh Produce Markets and Abattoirs
		1.10	District Cemeteries	1.10.1	To ensure that sufficient burial space is available within the district	1.10.1.1	To establish co-ordinated and efficient regional burial infrastructure where feasible	1.10.1.1.1	Investigate the feasibility of a Regional Cemetery Site/s
2	Economic, Agriculture and Tourism	2.1	District Tourism	2.1.1	To promote tourism in the District	2.1.1.1	To create effective Tourism structures and have effective institutional arrangements in place.	2.1.1.1.1	Regularly review Tourism section resources
								2.1.1.1.2	Revive Tourism Forum
								2.1.1.1.3	Strengthen TKZN linkages
								2.1.1.1.4	Review/update Tourism Sector Plan
								2.1.1.1.5	To update/maintain the Zululand Tourism Database

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
						2.1.1.2	To ensure tourists/ potential tourists are aware of our product	2.1.1.2.1	To update/implement themes/packages website upgrading brochure distribution
								2.1.1.2.2	To train and build capacity of employees
						2.1.1.3	Safety and Signage	2.1.1.3.1	Investigate needs and allocate resources
						2.1.1.4	To develop and promote Tourism Infrastructure	2.1.1.4.1	Develop/improve the following tourism routes Battlefields Route ZBR (Birding Route) Route 66
								2.1.1.4.2	Implement Tourism Portfolio Project
								2.1.1.4.3	To manage Tourism Hub Development
		2.2	LED	2.2.1	To improve the economy of the district, through the	2.2.1.1	Establishing LED Institutions and Processes	2.2.1.1.1	Review LED Plan

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
					creation of job opportunities and additional economic activities	2.2.1.2	To change the attitudes of local stakeholders in the economy with specific focus on local buying, local investment, welcoming new investment, co-operation in implementation of economic development and entrepreneurship	2.2.1.2.1	Promote economic development through use of the regional radio station
				2.2.1.2.2				Conduct grass roots capacity building and awareness programmes	
				2.2.1.2.3				Sensitize the community about LED	
				2.2.1.3		To establish a solid foundation for economic development within the district by addressing key socio-economic issues to allow communities to effectively participate in the district economy	2.2.1.3.1	Provide assistance with home-based HIV/AIDS care	

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
								2.2.1.3.2	Youth entrepreneurship development
								2.2.1.3.3	Provide support to the informal sector
						2.2.1.4	To raise specifically the investment profile of the district through a multi-pronged public relations and marketing programme	2.2.1.4.1	Develop Marketing Plan
								2.2.1.4.2	To market product development
								2.2.1.4.3	Establish Development Agency
						2.2.1.5	To improve access within the district and access between the district and neighbouring areas	2.2.1.5.1	Prepare and implement a roads upgrading programme in co-operation with DoT and the LMs
								2.2.1.5.2	Upgrade road signage
								2.2.1.5.3	Investigate the feasibility of a privatised "highway patrol"

KPA No	National General Key Performance Areas	Focus Area No	Powers and Functions	Key Obj No	Goal	Obj No	Objective	Strategy No	Strategy
						2.2.1.6	Focus on achieving visible delivery with regard to local economic development	2.2.1.6.1	Implement budgeted Tourism Development Projects
3	Social Development & Food Security	3.1	HIV/AIDS	3.1.1	To reduce the impact of HIV/AIDS	3.1.1.1	To create HIV/AIDS awareness and education	3.1.1.1.1	Review HIV/Aids Plan
						3.1.1.1.2	Implement HIV/AIDS awareness and education campaigns		
		3.2	Youth and Gender	3.2.1	To develop and empower Youth, Woman, people living with Disability, the Elderly, Widows and Orphans	3.2.1.1	To strategically plan development and empowerment initiatives for youth and gender	3.2.1.1.1	Review the Youth, Gender and People living with Disabilities Plan
						3.2.1.1.2	Identify and implement projects focussed on youth development		
						3.2.1.1.3	Identify and implement projects focussed on the development of women

						6.2.1.3	To promote good IGR	6.2.1.3.2	To implement budgeted activities for IGR

4.2 STRATEGIC MATTERS

4.2.1 UNACCOUNTED FOR WATER

Zululand District Municipality implemented an UAW Programme during the 2012/2013 Financial year which has achieved some mixed results impacted by a large scope of physical ground work and equipment required to collect data for analysis purposes, and which is currently being undertaken. This programme is still at its inception phase but improvements of 25% of the 40% current water losses in the 2012/2013 Water Losses were realised, i.e. 10% improvement.

The following interventions are currently being instituted to reach a target of 30% water losses by the 2013/2014 Financial Year:-

- Introduction of lowered pressure standards from an average of 600Kpa to 300Kpa subsequent to relevant studies.
- Replace domestic and non-domestic meters in line with Municipality's Asset Management Plan.
- Ensure every bulk water consumers and business consumers are metered and meters read monthly.

4.2.2 KEY LED PROGRAMMES AND PROJECTS

4.2.2.1 STRATEGIC TOURISM INFRASTRUCTURE

4.2.2.1.1 P700 Nodal Development

The greenfields project is situated at the corner of P700 and P701 which are Provincial Priorities as identified in the Provincial Growth and Development Strategy. The project which was identified as a future node in Ulundi involves propping up infrastructure development (internal roads, sewer, water and electricity) Funding was obtained from Cogta – Special Initiative program. There are private investors who have invested in the development with construction of a Sasol Garage (Sasol, and Dept. of Energy have recently constructed a filling station, bakery, library, internet cafe.

The Zululand Anthracite Colliery (ZAC), ZDM, Ulundi LM and Cogta are currently building a Laundromat.

4.2.2.1.2 Ulundi Tourism Hub

The project objective is to attract tourist and resuscitate the airport in Zululand which is the third largest airport and second longest runway in the province. The project includes a restaurant, tourism offices, office space and ablution facilities.

The ultimate project scope includes construction of high status accommodation facility, vehicle shuttle service, performance area (auditorium, conference facility etc.

4.2.2.2 SMMES AND INFORMAL TRADER SUPPORT

4.2.2.2.1 Market Stalls for Informal Traders in Nongoma Town

Nongoma CBD has a number of informal traders who do not have shelters to display their products. This has a negative impact on social development, job creation and the growth of the town. A project was implemented which includes 39 trading stalls and is managed in partnership with Nongoma Local Municipality.

4.2.2.2.2 Rehabilitation of Mona Marke

The overall objective of this project is to use the Mona Market and Nguni cattle auction at Nongoma as a focal point/theme to develop two of the core economic sectors in Nongoma: Agriculture & Tourism. Right now the market operates in an open field where muthi and cultural traders battle for space. There is also a small facility for management and auctioning of livestock. Over R5m has been spent for detailed planning. Draft tender documents and environmental authorisation has been obtained. The project is prepared for implementation.

The project will be done in phases due to the high total cost. The market is currently fenced with palisade fencing.

Phases are as follows:

Phase 1: Traders hall, maintenance, waste management and access control.

Phase 2: Administration building and hostel units.

Phase 3: Tourism centre, research facility and nursery

Phase 4: Auction centre and Vet station

The Community is constantly submitting needs via ward structures which are considered by the municipality. These relate to Poverty Alleviation and are enablers to support entrepreneurship in communities that have formed co-operatives. A budget of R60, 000.00 and R20, 000.00 per ward is made available per ward and allocated towards needs that have been identified.

4.2.2.3 FOOD SECURITY PROGRAMME

4.2.2.3.1 Ukulima Programme (Agricultural Revival)

An investigation of existing agricultural development projects within the district reveals a small number of “large scale” projects that are already in existence. These projects are largely sustainable and are making a significant contribution to the local economy. Agricultural stakeholders within the district are realising that they are the drivers of local economic development with the support from government through enabling the environment.

The district embarked on a process of reviving agriculture which is a key strength for the social and economic development of communities in the district by enhancing the LED Agricultural Sector with the most strategic, efficient and effective mechanism to be used on the tractors allocated to LED Section for **Ukulima**.

This is aimed at supporting the emerging farmers to be more productive.

4.2.2.3.2 Community Gardens

Community gardens are recognized as one of the most cost-effective and efficient means for communities to grow their own food products for sustenance. The gardens can also be used by the community for economic benefit by selling such vegetable products grown in community without having to travel to markets. With the correct agricultural methodology and support, the communities may also sell quality vegetable products that can be sold to local markets.

The Zululand District Municipality has packaged a Business Plan for a District Nursery where local producers can sell their seedlings and or grow them with products being sold to markets. The project has not picked up as it is in need of funding.

Additional support initiatives to communities from the Zululand District Municipality in the interim include agricultural awareness, supply of seedlings, reasonable supply of water (making use of nearby sources) for irrigation. These programmes are done in partnership with the department of Agriculture.

Several community projects have been identified and are in need of funding including

Project	Area
Bululwane Organic Fertiliser Programme	Nongoma
Hydroponic and Market Stalls	Ulundi

These projects were identified by the communities and Business Plans have been submitted to the Department of Agriculture.

4.2.3 FINANCIAL PLAN

4.2.3.1 CASH POSITION

There is a positive cash flow position and as a result, there was no need to take either a short term or a long term loan. In fact, the cash flow position was so strong that it was opted during the year to settle an outstanding long-term loan that was taken in prior years to finance the municipal building.

4.2.3.2 AUDITOR GENERAL REPORT

For the past 13 years Zululand District Municipality has achieved unqualified audit opinion from the office of the Auditor General.

4.2.3.3 CHALLENGES

There are basically two major challenges:

- The collection of outstanding debts is a challenge especially because the majority of our consumers are indigent and the water network is dilapidated and thus causing water leaks which translate into huge consumer accounts and water loss.
- The grants dependency ratio is high.

Financial Overview: Year 2012/13			
Details	Original budget	Adjustment Budget	Actual
Income:			
Grants	650 996 000	2 683 517	569,632,092
Taxes, Levies and tariffs	32 771 604	-	27,077,989
Other	140 656		
	262	11 340 549	17,512,480
Sub Total	866 824 423	14, 024 066	614,222,561
Less: Expenditure	866 824 423	14,024 066	398,916,237
GAINS/ (LOSSES)			26,930
Financial loss			-3,481,539
Net Total*	-0	-	211,851,716

Operating Ratios	
Detail	%
Employee related costs	29%
Remuneration of councillors	1.52%
Bad debts	0.79%
Contribution to Doubtful debts	0.00%
Depreciation and amortisation expense	0.7.70%
Repairs and maintenance	9.91%
Finance costs	0.01%
Bulk purchases	17.51%
Contracted services	2.50%
Grants and subsidies paid	0.28%
Departmental Charges	0.50%
Collection costs	0.03%
General expenses	30.17%
Total	100%

COMMENT ON OPERATING RATIOS:

Employee cost ratio is favourable at 29% compared to a norm of 30%, repairs and maintenance is unfavourable with ratio of 10% compared to a norm of 20%. The reason of unfavourable repairs and maintenance ratio is the fact, conditional grants are only meant for new capital and there is no repairs and maintenance component. Moreover, the own revenue generating capacity is low. Finance costs are favourable and depreciation is below the norm of 10%.

In order to counter the low revenue generating capacity, a Revenue Enhancement Strategy was budgeted for in the 2014/15 Financial Year.

4.2.3.4 STATEMENT OF FINANCIAL PERFORMANCE

In terms of performance the municipality is rated amongst the best in the country, for instance, for the past ten years the allocations from grant funding were fully utilized by the municipality. This has been made possible by the fact that all the master planning for the entire district have been in place for a long time now and BPs in excess of R1 billion have been approved and if funding becomes available implementation happens without delay. The backlogs are gradually being reduced in line with the allocations received yearly.

4.2.4 SUPPLY CHAIN MANAGEMENT

One of the financial management tasks that council needs to perform in order to fulfil oversight function is the approval of the supply chain management policy.

The existing policy was reviewed and approved by council on 29 May 2013. The new policy now includes the Bid Appeals Tribunal and the clause of the BEE certification requirements. The tribunal mechanism is envisaged to resolve bid disputes in a much easier way than the expensive route of the courts.

The reports on the implementation of the supply chain management policy is included as part of the Finance report

All the bid committees functioned properly during the 2012/2013 financial year.

	Zululand District Municipality	Pongola and Ncotshane waterborne sewer system	construction of waterborne sewer system		R 131,014,654.00	DWA		
5	Roads							
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	

	Ulundi	Earthworks Moving Equipment	Ulundi Municipality is a rural Municipality with almost all its roads gravel. The mini plant in question will make Ulundi Municipality able to contribute in maintaining and rehabilitating rural roads. Ulundi Municipality has for quite some time always had the dire need for a grader, a roller, a water tank, trucks and a pay loader.	Municipal wide benefit	R 4,000,000.00	Transport	Job creation which is in line with PGDS and a priority of the province. It would work towards achieving a millennium goal. Unmaintained roads are a serious source of danger to commuters and wear and tear of vehicles. It is no secret that vehicle fatalities are a national issue at the moment. Ulundi Municipality also has an idea of partnering with SMMEs in this regard which will add value in SMME Programme and Local Economic Development.
	Ulundi	Bus/Taxi Shelters	Provision of bus and taxi bus shelters at strategic public transport collection points	Municipal wide benefit	R 3,000,000.00	Transport	All Communities using public transport will benefit.
	Ulundi	Mpungamhlophe Access Road	Tarring of a 12 km access road to Mpungamhlophe as identified in the Ulundi SDF		R 42,000,000.00	Transport	Mpungamhlophe is of the high potential key nodes of Ulundi. Tarring of this road will enable access to services for the town which has a sizeable population. Economic opportunities will also open up. Investor confidence is currently hampered by this gravel piece of access road.

	Zululand District Municipality	iThala link road	Tarring of road to access iThala Game Reserve from N2		NA	Transport	Surrounding communities will benefit from exploiting small scale economic opportunities from increased tourism traffic to the area. The gravel road is a deterrent to tourists.	
6	Waste Disposal							
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	
	Ulundi	Babanango Landfill Site(upgrade)	Ulundi Municipality covers a wide area in so far as Environmental Management is concerned. Waste has to be collected even in the nodes. Babanango is one of the nodes in Ulundi Spatial Area where waste is collected and transported over 80km a single trip to the waste waiting area. It is therefore advisable to process waste in the same area which in turn will benefit communities in the area and reduce the cost of the tax payer's money currently paid by the Municipality.	16	R 10,000,000.00	DAE, DEAT	Benefits include Job creation-Type (F), Poverty alleviation Type (E) , Clean Environment In response to cop 17 programmes Type (I), Recycling of waste Type (F) , reduction in cost Type (J).	
	Zululand District Municipality	Upgrade of key solid waste sites in DC 26	Upgrade of key solid waste sites in all local municipalities as none are complying with Environmental regulations.		R 7,322,070.00	DEAT	All communities in Zululand will benefit because this scenario affects environmental management with high risk of diseases highly possible considering the poverty situation of the district.	It is also not clear if the MIG budget can be utilised to fund operational expenditure estimated to be in the region of R1,727,000 per annum for all sites combined. Business Plan is available.
B.	LEADING AND SUSTAINING RURAL AND URBAN DEVELOPMENT							

	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	
	Zululand District Municipality	R66 (Nongoma/oPhongolo)	Completion tarring of R66 road linking Nongoma and oPhongolo/Swaziland	Municipal wide benefit	NA	Transport	R 66 is a Primary Corridor. Vision for this road is developing a localised Corridor Development Strategy focusing on the spatial structure, infrastructure provision in order to attract public and private sector investment. It is also envisaged to establish a multi-modal transport integration at key points linked with the adjacent rural areas. All communities in Zululand will benefit in terms of potential economic opportunities that present themselves with this road opening up specifically Nongoma and oPhongolo communities including market stalls and tourism facilities. There is already conglomeration of activities growing at specific nodes as the areas develop further and further. The	Tourism agencies have been engaged on numerous occasions to consider adding Zululand as an itinerary when passing through from Durban to Swaziland along the N2. They have expressed willingness to do so only if the road conditions are improved especially tarring of the Nongoma to oPhongolo link as well as offering alternative tourist activities apart from game lodges, game farming/viewing.

								communities hosting significant population concentrations must travel vast distances to access services only available in both major towns.	
	Zululand District Municipality	Commercial Cattle Farming	Establish SEZ or supply chain model to exploit potential of largest concentration of livestock in the province to benefit cattle owners	Municipal wide benefit	NA	DAE, DEDT	<p>Zululand has often been said to have the largest concentration of livestock farming in the province yet it remains one of the poorest districts in the province. Livestock including cattle and goats is in abundance within the district but owners do not realise the economic potential that exists in improving their lives significantly. Vryheid town has an existing cattle industry with facilities including stockyards and auctions. Nongoma also has a facility being upgraded. There is potential to produce and sell quality meat products locally and internationally. Further, there is potential for value add utilising all parts of the animal to create other sellable products i.e. leather</p>	<p>Skill to produce cattle exists, land for grazing is available, livestock is in abundance, Nguni cattle(if that it the product focus) is disease resistant thus reducing costs on maintenance and upkeep of livestock.A breeding programme and establishment of an organisation to facilitate market access and access to quality medicine and farming support to emerging farmers can be established. This model works well in the Overberg District Municipality.</p>	

								products, horns and hoofs for art products, milk and cheese (supply chain)	
	Zululand District Municipality	Soya Bean growth for biodiesel production	Supply of Soya to soya production plants around the province/country	Municipal wide benefit	NA	DAE, IDT, DEDT	Price of petroleum continues to rise and other cheaper sources of fuel are constantly becoming more relevant. Ample land is available. There are several emerging farmers who can breed and supply soya. Potential would open up for interested potential farmers. Soya is easy to grow.		
	Zululand District Municipality	Pongolapoort Dam Development Node	Development of Pongolapoort Dam Node including luxury accommodation, golf courses, water based sports , game reserve, arts and craft centre, filling station and upgrade of the local airstrip		R 3,200,000,000.00	DEDT,COGTA,	This is a PPP project which will see contribution across all sectors. The potential development lies in the TFCA between Zululand, Mozambique and Swaziland and could serve as major tourist drawcard. The dam and surrounding scenic landscape is the key element. Approximately 10000 temporal jobs and 1500 permanent jobs	The project had been kick started but experienced challenges which led to the project stagnating. However, the project needs to be re-ignited as it could serve as a successful pilot for the area, province and the country.	

							could be created.	
C.	PROMOTING SUSTAINABLE CHANGE IN SOCIAL AND ECONOMIC CONDITIONS							
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	
	Ulundi	Agricultural Markets	The Agricultural Market will be located in a central area accessible by all types of Agro producers. It will provide the market to all producers especially the emerging farmers.	All wards	R 30,000,000.00	DEA, DEDT	By providing a convenient and proper Market place, SMMEs, emerging farmers and agricultural producers and other communities will benefit. The local Economic Development will be promoted. Livestock Farmers will stop selling anywhere along side the road which contravenes the Municipal by laws.	
	Ulundi	Poultry Farming	This type of projects has been identified almost in all wards. The idea is that at least there be one in each ward. Some of these projects exists but they need to be revived and problems that led to them failing be identified and remedied and monitored. The Municipality believes that with proper funding and monitoring these projects can survive as they have a ready market	All wards	R 16,000,000.00	DEA, DEDT, Social Development	Creation of decent permanent jobs in line with the State President State of the Nation Address, KZN Strategic Goals and Objectives, outcome 9, and types B, C, E, F, H. Local Economic Development, Rural Development programme and others will be realized. Poverty will	

								be alleviated and skills created. The projects will be carried out in rural areas and locally where communities live and this will reduce the flow of people to urban areas. It is easier to start this type of a project. Local Communities will save the added costs as the production will be carried in their locality.	
	Ulundi	Synthetic Grass Sports Field	The purpose is to get low maintenance sports fields in the deep rural areas and to create an enabling environment for the promotion of Sports. At least one sport field in a ward be upgraded.	All wards	R 36,000,000.00	Sports and Recreation	Sport will be encouraged in rural areas, youth can be kept busy and can be encouraged to stay away from drugs and violence, small to medium job creation can be generated. Sports committees will have a facility to identify to identify talent		
	Ulundi	Feasibility Study of a Trading Centre at Mpungamhlophe	Conduct a Feasibility Study and Construction of a Trading Centre at Mpungamhlophe to create an environment to allow access to markets for emerging businesses.		R 30,000,000.00	DEDT	If feasibility studies have been carried out, it makes it possible for funding to be sourced based on facts, It is possible to source funding on projects that are packaged, Trading Centres will reduce a burden of travelling to town all the time		

								to buy a few items, this in turn will save communities money for other essentials. Job opportunities will be created both temporary and permanent.	
	Zululand District Municipality	Homeless Centres	Establishment of homeless centres at 5 strategic nodes across DC 26	Strategic nodes	NA	Social Development		There is a huge demand for such centres in district which carries one of the highest numbers of child-headed households which is a recipe for disaster in childhood development. Further there is a significant number of old people which are not taken care of adequately due to lack of resources and being considered as liabilities by their families. There is a need to establish such centres to ensure that these groups of people live dignified lives at least.	
D.	LEVERAGING CORRIDOR DEVELOPMENT AND REHABILITATION OF SMALL TOWNS								
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department			

	Ulundi	Mpungamhlophe Access Road	Construction of a 12km stretch of gravel road to maximise development potential of Mpungamhlophe node(rural service centre)		R 42,000,000.00	Transport	<p>Mpungamhlophe is one of the nodes forming up the SDF for Ulundi Municipality and is thus equally important. This node needs to be developed as it has the high potential as a node. It is somewhat 10 km off R34. It forms part of the corridor development.</p> <p>Mpungamhlophe is a semi township which has a potential to become a proper township. It also needs to be formalised to a township. The 12km gravel road of R34 to the heart of Mpungamhlophe is terrible and it hinders the development and investor's willingness. The tarring of this piece of road will open up many developmental opportunities. The feasibility study for a trading centre has been carried out so that some facts about the area are already known. This gravel piece of road was one of the unfavourable</p>
--	--------	---------------------------	---	--	-----------------	-----------	---

								factors in the feasibility study. Mpungamhlophe qualifies for a corridor Development in many respects.
	Zululand District Municipality	P700 Corridor	Fast-track tarring and completion of P700 route linking Zululand and uThungulu	Municipal wide benefit	NA	Transport	The road is not only a district but a provincially recognised potential corridor identified in the PGDS. Several studies have been conducted including a P 700 Nodal Development Plan that identifies key strategic nodes along this corridor that will benefit from agricultural, tourism and economic spin-offs and opportunities. Communities adjacent to this road will also benefit tremendously. Apart from easing private vehicle and freight congestion off the R34 linking Zululand with uThungulu and the existence of the latter's port (Richards Bay) presents significant potential economic spin-offs.	

	Zululand District Municipality	Small Town Rehabilitation	Rehabilitation of small towns with Babanango town(Ulundi) as priority		NA	COGTA	The town of Babanango is one of the small towns in Ulundi specifically a rural service centre. It is arguably one of the most deprived towns in the area of Ulundi if not the district. It has also appeared in the media after it was highlighted by one of the opposition parties of the country. Although it may not have a sizeable population but the town is desperately in need of infrastructure upgrade including roads, water and sanitation, education, health and other government services. The town is rural but will also benefit tremendously by attracting at least one major anchor store and then to support fledgling businesses in the area to produce basic products required by the people in the town.	
E.	GEARED TOWARDS ACHIEVEMENT OF THE MILLENIUM GOALS							
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	

F. GEARED TOWARDS MASSIVE JOB CREATION AND LOCAL ECONOMIC DEVELOPMENT								
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	
	Nongoma	Tourism and Cultural Hub Nodal Development	Development of a tourism and cultural facility which will display, preserve and promote the rich cultural history, heritage and natural resources of Nongoma. Over and above the main structures the facility will include a park, landscaping, traditional huts, and perimeter lightning	9	R 94,850,000.00	ZDM, COGTA, DEAT, AMAFA, DEDT	Nongoma has a population of over 200000 and a number of small to large scale businesses that will benefit from increased clientele through tourist activities in the town. Nongoma is a tourism potential destination, the tourism and cultural hub will open job opportunities to many people including small businesses for traditional creative work. Nongoma Municipality is the home of Royal Zulu Monarch with rich diversity and scenic nature trails, historic heritage and a unique moderate climate. .A park will also encourage both environmental management and healthy social lives for young people.	This project started with the by-pass road which will ease traffic in the CBD, allowing access to the under construction museum. These two projects are funded through NDPG.

	Abaqulusi	Development of the Vryheid Railway Precinct Plan	As part of the Abaqulusi LED Initiative funded by the KZN DEDT discussions have been kick started with Transnet Properties and Transnet Freight Rail for release of prime land around the railway station for industrial development in response to interest receive from existing and potential new investors and the identified need to effect the regeneration of the Vryheid Town Centre and release its potential as the economic hub of the ZDM. It appeared in the 2 meetings held so far that Transnet has made many attempts to also release current residential areas to the ownership of the municipality and is prepared to pay for the proclamation of the two residential areas (Hardy Town and Parkville) as townships and also upgrade services to municipal standards.	Land Around the Railway Station in the Vryheid Town Centre in WARD 7	R 700,000.00	DEDT, COGTA	Municipality will have an opportunity to regenerate the town centre and attract investment and improve spatial planning of the town centre. Vryheid has a population of over 240000. The project has potential to create significant jobs and economic empowerment opportunities with investors having committed to investing provided that there is proper planning. The development of the precinct area around the railway station is considered as catalytic project. The precinct plan will provide a strategic and practical framework to guide the release of land around railway station and infrastructure for a mixed use development driven by light industrial development and residential development in such a manner that the integrity and efficient operation of the	Transnet is to protect integrity of its infrastructure whilst at the same time playing a role in the economic regeneration of the town. Transnet Properties keen to shared non-core assets to better uses and keep what can still be used by Transnet Freight Rail
--	-----------	--	---	--	--------------	-------------	---	--

							<p>railway infrastructure, which is key to the sustainable economy of the Abaqulusi can be protected.</p>	
	Zululand District Municipality	Ngome Tea Estate	Revival the 500 hectare Ngome Tea Estate.	Nongoma		DEDT, COGTA,DAE,DTI	<p>This existing facility is located in the Nongoma area and was a vibrant and supplying quality tea product to several markets. There was also large scale jobs (labourforce of 1000) generated until minimum wage laws and a strong affected competitiveness in the global market. Nongoma is one of the most impoverished areas in the district. The facility could also serve as a tourist drawcard. Potential exists to revitalise the tea estate and produce a premium or differentiated product for the domestic market. Potential exists to develop restaurants and accommodation to strengthen tourist</p>	<p>Infrastructure of this estate exists including tea garden. Land is owned by the state</p>

							attraction.

	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	
H.	ALIGNED TO (OR LOCALISING) PROVINCIAL AND NATIONAL PRIORITIES							
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	
I.	PROMOTING SUSTAINABILITY OF THE ENVIRONMENT							
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	

	oPhongolo	Strategic Environmental Assessment and Environmental Management Plan	Do a Strategic Environmental Assessment and prepare an Environmental Management Plan for uPhongolo Local Municipality. uPhongolo Municipality is situated in an environmentally sensitive area that need to be protected for the benefit of it's residents and the broader community of KZN, Swaziland and Mpumalanga. Areas for various land uses including development and protection need to be identified. The municipality is in the process of fulfilling it's legal mandate to prepare a Spatial Development Plan and a Land Use Management System.	Entire Municipal area	R 500,000.00	DEAT, COGTA	oPhongolo has a population around 149543 with 22112 households and 104 settlements. The uPhongolo Municipal area largely comprises of traditional areas with its tribal land patterns and high density rural settlements. Pongola-Ncotshane is the primary node of uPhongolo and accommodates the highest order nodal activities. It is formal and planned with an orderly growth pattern. Belgrade settlement (situated approximately 50km west from Pongola on the N2 to Piet Retief in Mpumalanga) and a node halfway between Pongola and Belgrade are the secondary nodes and provides a strategic service to a number of tribal areas which are located far from Pongola town. Magudu, Golela, the N2/P72 intersection (Golela) and the N2/P522 (Jozini) intersection are special nodes identified for future
--	-----------	--	--	-----------------------	--------------	-------------	--

								<p>development based on their unique position within the area. Pongola-Ncotshane, and Illovo Mill townships are high density built areas. The uPhongolo Area features some important conservation areas or areas that will require careful management in the unfolding development pattern including Pongolapoort dam and nature reserve, Bivane Dam, Ithala Nature reserve, The area surrounding Magudu and the Mkuze river, The area between the R66 and the N2, The Municipality is in an excellent position to reap the benefits of an intensive tourism programme due to the natural beauty of the area, the existing tourism related development and the potential for future tourism related development. The proposed extension of Ithala Nature Reserve and the upgrading and development of</p>
--	--	--	--	--	--	--	--	---

								facilities at the Pongola Poort Nature Reserve have the potential to greatly enhance the tourism sector in the Municipality with the concomitant effect of changing the area to a destination rather than thoroughfare to other destinations.
	Ulundi	Aloe Processing Plant	Aloe is one of the key resources in the district. Its abundance is deteriorating rapidly due to excessive harvesting and lack of preservation mechanism. There is limited use of this resource to the benefit of communities especially economically. Aloe will be harvested from all wards which will benefit all communities in Ulundi Municipal Area. SEDA has already conducted the feasibility Study. The intention is to let co-operatives to own and run it. The aloe will be harvested from all wards, be transported to the site and be processed and purified for use.	The project is in Wards 9 and 10 in a deep rural area.	R 25,000,000.00	DEDT, DAE, DED	There is going to be a massive job creation which in line with the State President's State of Nation Address, and it is in line with KZN Provincial Priorities. It is going to attract investors both Local and Foreign as it will give confidence as a successful venture. It will improve lives of the poor as the project is intended to benefit all wards that have aloe. -Aloe that has not been utilised will now be utilised to benefit poor communities. -There	

							<p>will be a boost in the economy of Ulundi and the Province which is also in line with KZN PGDS. The project has tangibles since it already has a site with some infrastructure. The Co-operatives Programme is going to benefit directly. Skills will be transferred and attained. The Feasibility Study has already been conducted and by a SEDA involved. It is anticipated that products such as soap, medication and various food stuffs will be generated from the Aloe. There will be no exporting of raw material as the aloe will be processed and finalised in Ulundi , Only finished products will be exported.</p>	
	Ulundi	Feasibility of an Alternative Energy source	Establishment of an alternative source energy to electrification that will alleviate demand and supply pressure off the town grid	Municipal wide	R 150,000,000.00	Energy	<p>In the Ulundi Municipal Area there is still some huge backlog in the Eskom supply area, the indication of the backlog is 12 900 households. Eskom has built Enyokeni Power Station which</p>	

							<p>some what gives assurance that there will now be enough power supply. However the process will take time and some areas need the alternative energy. This is an very basic service that communities must have. This need is incorporated into the Millennium Development Goals and all citizens must have access. The project has the potential to create jobs, contribute to reducing the carbon footprint of the environment in line with COP 17 principles, constant supply of energy to poor households, education and health institutions. It is also anticipated that this will reduce loss of life due to disasters such as burned houses, use of toxic energy heaters and stoves etc</p>	
J.	PROMOTING GOOD GOVERNANCE, INSTITUTIONAL DEVELOPMENT AND FINANCIAL VIABILITY							
	Municipality	Project Name	Project Description	Location Ward	Required funding	Proposed Lead Department	Brief Profile of Beneficiaries or Benefits	

	Ulundi	Thusong Service Centres	Facilities that include a conglomeration of government services so that communities living away from the urban centres can access these benefits closer to home.	All wards	R 300,000,000.00	Social Development, COGTA, GCIS	The programme started some years ago but the people of Ulundi have never benefitted. There are 5 Nodes in the Ulundi Spatial area and these nodes require this kind of service. 5 Thusong Centres are required. In some of these Nodes some homework has already been done. Poor communities in rural areas travel to Cities and Towns for very basic needs, the Thusong Service Centre brings these basic needs closer to communities and thereby saving them money that can be used for other needs and thus sustain better life. Services required include ID registration, birth certificates, business support centres, rape centres(social workers), high level basic health services, etc.	Ceza node, the process had gone as far as communities and traditional Leadership identifying the suitable site. Babanango Node site identified with some challenges. Mpungamhlophe Node, feasibility study already carried out for a Trading Centre. Nqulwane Node, feasibility study and business plans already carried out the Zululand District Municipality. The project will also reduce distances and cost of travelling to town to access government services.
--	--------	-------------------------	--	-----------	---------------------	---------------------------------	---	---

	Zululand District Municipality	Broadband and IT Infrastructure Upgrade	Upgrade of all broadband and IT infrastructure in the district to improve alternative communication methods between municipalities as well as communities in Zululand	Municipal wide	NA	GCIS	Technology is a necessity in this age of globalisation. There is a need to improve communication infrastructure to enhance IT compatibility between all municipalities which inhibits centralisation of information in many sectors. There is also poor network systems which are also not accessible in many corners of the district and this is crucial when attempting to draw investment.
